sidwil0790@students.ecpi.edu

## Education

### ECPI University

August 2014 – Present

*Bachelors in Computer Science with a focus on Database Programming*

### Fluvanna County High School

August 2010 – May 2014

## Achievements

### Websmith Sensors Project

MVP

The goal of this project was to create an Android application for Websmith that would read data from a Mantis Open Stem Climate Sensor via Bluetooth in a useful and valuable way to the user. We were placed into two teams competing against each other with my team being the winning team, as well as me being voted as the MVP of the project.

## Technical Skills

### Programming

C++/C#/C, Java, Android, iOS

### Web/Infrastructure

HTML, CSS/Sass, JavaScript/jQuery, PHP, SQL

## Work Experience

### Clean Lines Lawn Care

March 2017 – April 2017

*Freelance Full Stack Developer*

I took on the role of developing the frontend, backend, and hosting of the website [www.cleanlineslawncare.com](http://www.cleanlineslawncare.com). Skills I used included HTML, CSS/SCSS, SQL, PHP, JavaScript/jQuery, and Bootstrap.

### Universal Community Developers

February 2017

*Freelance Full Stack Developer*

Universal Community Developers is a non-profit organization for whom I built, and maintained the site [www.universalcdev.org](http://www.universalcdev.org). This involved front end, back end, and server administration work. Skills used for this project were HTML, CSS/SCSS, SQL, PHP, and JavaScript.

### Authentic Knitting Board

June 2013 – July 2013

*Laborer*
